To Whom It May Concern,

If you are looking for resources to better reach your community for Christ, I want you to know about this new ministry. Elder Harold White, who recently retired from the Sacramento Central Church as their administrative pastor, began a new ministry called "His Hem Ministry."

"His Hem Ministry" exists to provide money and people to personally touch the people within your community. Elder Harold White explaining the rationale of this ministry said, "I would see many sincere and on-fire people sacrificing much to come to AFSCO for some wonderful training and yet when they were done they went home to the same old life because there was no money to hire them"

Those within the "His Hem Ministry" love to preach our 28 fundamental beliefs. They will train Bible Workers to bring people into His remnant church and prepare them for the soon coming of Christ.

I want to encourage you to invite them to preach in your church. After you have dialogued with them about their ministry, you could determine if that ministry would be a blessing to your church. If you are interested please contact Elder Harold White directly at howhite@sbcglobal.net

May God continue to abundantly bless you, your family, and ministry!

Because of Him,
